No.23(2)ACS/Morocco/2007

Islamabad, June 25, 2012

**OFFICE MEMORANDUM**

Subject: **OFFER OF SCHOLARSHIPS BY THE GOVERNMENT OF MOROCCO FOR THE YEAR 2012-13**

The undersigned is directed to enclose herewith a self explanatory letter received from the Embassy of Morocco in Islamabad. The Moroccan Agency of International Cooperation (AMCI) has offered ten (10) scholarships for the Pakistani students at undergraduate / Masters Level studies for the academic year 2012-13.

2. The courses at Moroccan Universities and high schools will begin in the 1<sup>st</sup> and 2<sup>nd</sup> week of September, 2012. The deadline for receipt of applications by AMCI is **1<sup>st</sup> August, 2012**. The applicants need to take into account the following regulations:

- Students must present, at registration, long stay valid visa and medical certificate certifying that they have been vaccinated, especially against tuberculosis.
- Candidates must pay, upon registration, an amount of \$ 100 in respect of their fees,
- The accommodation at the International Campus of Rabat is for newly enrolled students, with priority to those pursuing the upgrade in French,
- Students who violate the rules of procedure of the Campus will be automatically and permanently excluded,
- The candidates must, prior to their arrival in Morocco, take out an insurance policy. A relevant certificate is required upon registration,

3. The candidates may explore further information on Universities and high schools as well as on the procedure and formalities of registration in Morocco on the following websites:

- [www.amci.ma](http://www.amci.ma), [www.ensup.gov.ma](http://www.ensup.gov.ma), [www.dfc.gov.ma](http://www.dfc.gov.ma) or [www.men.gov.ma](http://www.men.gov.ma)

4. It is requested that nominations of suitable candidates alongwith copies of relevant documents may kindly be forwarded to Economic Affairs Division latest by **16<sup>th</sup> July, 2012**. Incomplete / late submission of documents/nominations will not be accepted.

Nº: 145 /12

12th June 2012

The Embassy of the Kingdom of Morocco in Islamabad presents its compliments to the Ministry of Foreign Affairs of the Islamic Republic of Pakistan, and has the honor to inform that the Moroccan Agency of International Cooperation (AMCI) has granted 10 scholarships for the Pakistani students for the academic year 2012-2013.

Given that the courses to Moroccan universities and high schools will begin in the first week of September for some of them and in the mid-September for the others, **the deadline for receipt of applications by the AMCI shall be, at the latest, in First August, 2012.**

In this regard, any delay of the transmission of applications and/or of the presence of concerned students in Morocco, could affect their registration with the host institution, knowing that the controls of the first semester will begin in the second week of November 2011.

Meanwhile, the applicants should necessarily take into account the following regulations:

\*Applicants will be asked, upon registration, to present a long-stay visa issued by the Embassy,

\*Students must present, at registration, a medical certificate certifying that they have been vaccinated, especially against tuberculosis,

\*Candidates must pay, upon registration, an amount of \$ 100 in respect of their fees,

\*The accommodation at the International Campus of Rabat is for newly enrolled students, with priority to those pursuing the upgrade in French,

\*Students who violate the rules of procedure of the Campus will be automatically and permanently excluded,

\*Candidates must, prior to their arrival in Morocco, take out an insurance policy. A relevant certificate is required upon registration,

\*The students laureates of Morocco wishing to pursue studies in Master's or PhD, will benefit from a scholarship of cooperation, however if it is taken from the official quota.

All the information on universities and high schools as well as on the procedure and formalities of registration in Morocco are available on the following websites:

-AMCI: [www.amci.ma](http://www.amci.ma)

-Ministry of National Education, Higher Education, Professional Training and Scientific Research: [www.enssup.gov.ma](http://www.enssup.gov.ma) or [www.dfc.gov.ma](http://www.dfc.gov.ma)

- Ministry of National Education: [www.men.gov.ma](http://www.men.gov.ma)

The Embassy of the Kingdom of Morocco avails itself of this opportunity to renew to the Ministry of Foreign Affairs of the Islamic Republic of Pakistan the assurances of its highest consideration.

## I- FACULTIES

Institutions	Requirements		Awarded Diploma	Duration of study	Subjects
	Educational criteria	Age Max.			
Faculties of medicine and Pharmacy Location: Casablanca, Fez, Marrakech, Oujda, Rabat	Option: General Medicine - high school diploma series: C, D sciences, obtained in the year of registration. With distinction (Excellent, VG or G) - Average $\geq 16/20$ in core subjects	21 years old	"Doctor of Medicine (General) "	7 years	General Medicine
Faculties of Medicine and Pharmacy Location: Rabat	Option: Pharmacy - Degree in sciences or chemistry and biology obtained in the year of registration, obtained in Morocco with distinction (Excellent, VG or G) in 1st and 2nd years - Review and acceptance by the faculty	23 years	Doctorate in pharmacy	4 years	Pharmacy
Faculties of Dentistry Location: Casablanca, Rabat	Option: Dentistry - high school diploma series: C, D sciences obtained in the year of registration. With distinction (Excellent, VG or G) - Average $\geq 16/20$ in core subjects	21 years old	Doctor of Dental Medicine	5 years	Dentistry
Faculties of Science Location: Agadir, Casablanca, El Jadida, Fes, Kenitra, Marrakech, Meknes, Oujda, Rabat, Tetouan	- high school diploma series: C, D sciences obtained in the year of registration. With distinction (Excellent, VG or G) - Average $\geq 12/20$ in core subjects	23 years	Bachelor degree	3 years	Mathematics, Physics, Chemistry, Earth Sciences and the universe, Mathematics and Computer Science
Faculties of Science and Techniques Location: Beni Mellal, Errachidia, Fez, Marrakech, Mohammedia, Serrat, Tangier	high school diploma series: Mathematics, Physics, Natural Sciences, Agronomical Sciences, Technological Sciences and electrical Technology or mechanical technology obtained in the year of registration with distinction (VG, G or fair) - Average $\geq 13/20$ in core courses	22 years	Bachelor degree	3 years	Mathematics - Computer Science - Physics Physics & Chemistry Biology - Chemistry - Geology Electrical Engineering - Mechanical Engineering

Faculty of law , Economics and Social Sciences Location:Agadir, Casablanca, El Jadida, Fes, Kenitra, Marrakech, Meknes, Mohammedia, Oujda, Rabat, Salé Serrat, Tangier "	high school diploma . Series: Economics, sciences or literature obtained in the year of registration	23 years	Bachelor degree	3 years	Economy Economics and Management, Public law Private Law
Faculty of Charia Location: Agadir, Fes	- high school diploma in Arabic literature obtained in the year of registration. Mastery of the Arabic language	23 years	Bachelor degree	3 years	Charia and Law الشريعة و القانون
Faculty of Langue Arabe Location: Marrakech	-high school diploma in Arabic literature obtained in the year of registration. Mastery of the Arabic language	23 years	Bachelor degree	3 years	Arabic studies
Faculty of Ossoul Eddine (Theology) Location: Tétouan	-high school diploma in Arabic literature obtained in the year of registration. Mastery of the Arabic language	23 years	Bachelor degree	3 years	Ossoul Eddine (Theology) اصول الدين
Faculties of Arts and Humanities Location Agadir, Beni Mellal, Casablanca, El Jadida, Fes, Kenitra, Marrakech, Meknes, Mohammedia, Oujda, Rabat, Tetouan.	high school diploma: all series obtained in the year of registration	23 years	Bachelor degree	3 years	Arab Studies, French Studies, English Studies, Hispanic Studies, German Studies, Italian Studies Islamic Studies, History and Civilization, Geograph Philosophy, Sociology, Psychology, Except for languages studies, the mastery of arabic language is required.

## II- Schools of Engineering

Institutions	Requirements		Awarded Diploma	Duration of study	Subjects
	Educational criteria	Age Max.			
<b>Preparatory Classes for Schools of Engineering (CPGE)</b> Location: Agadir, Beni Mellal, Casablanca, Errachidia, Fès, Kenitra, Khouribga, Laâyoune, Marrakech, Meknès, Mohammedia, Oujda, Rabat, Safi, Salé, Settât, Tanger, Taza	high school diploma. Series: Mathematics, Physics, Natural sciences, Agronomical sciences, electrical sciences and technology or mechanical sciences and technology obtained in the year of registration. distinction (Excellent, VG or G) - Average $\geq 16/20$ in core subjects Note: Arabic is one of the compulsory tests in the National Common Exam and English is required as second language.	21 years by 31/12/2012	Preparation for National Common Exam to State Schools OF Engineering	2 years	Mathematical, Physics and Engineering Sciences - Physics - Chemistry of Engineering; - Industrials Sciences and Technology; - Biology-Chemistry-Physics and Sciences of the Universe;
<b>Hispania School of Public Works (E.H.T.P)</b> Location Casablanca	Admission to 1st year 1 - Candidates of the 2nd year of preparatory classes of mathematics who succeeded in the National Common Exam to State Schools of Engineering 2- Students holders of general university studies diploma in :applied mathematics, computer sciences, mathematics, physics), obtained within 2 years immediately after the bachelor's degree with at least one distinction in each of the first 3 semesters + success in admission examination to school.	23 years by 31-12-2012	Diploma of State Engineer	3 years	Civil engineering, hydraulic engineering, environment and city engineering. Geographic information science Computer engineering, electrical engineering, meteorology
	Access to 2nd year. Possession of the degree of application engineering + admission exam			2 years	
	Bachelor degree in fundamental studies (mathematics, computer sciences, economics and management ...), a professional bachelor (civil engineering, transportation, logistics, computer ...) or an equivalent degree obtained with "satisfactory" distinction.		Master	2 years	Management and operation of transportation system

<b>Mohammedia School of Engineers (E.M.I.)</b> Location: Rabat *	Admission to the 1st year 1 - 2nd year candidates of preparatory classes of Special mathematics who succeeded in the Common National exam to State Schools of Engineering + be physically fit to follow the military training which is compulsory 2 - Students holders of general university studies diploma in Mathematics & physics, or physics & chemistry, + be physically fit to follow the military training that is required + success in entrance examination 3 - Bachelor's or equivalent degree + review and approval of student's application	22 years by the date of the admission exam	State Engineering Degree	3 years	Civil engineering, electrical engineering, mechanic engineering, industrial engineering, mineral engineering, computer engineering, process engineering, modeling and scientific computing
	Admission to the 2nd year Master in Sciences, + review and approval of student's application by EMI + be physically fit to follow the military training which is compulsory			2 years	
<b>National School of Administration (E.N.Ad.)</b> Location: Rabat	1-cycle of training in administrative management high school diploma and justifying two years of graduate academic success (high school diploma +2) in economics, law, management or an equivalent degree + examination and acceptance of the student's application by the school + admission exam	No more than 35 years by the date of admission exam	Diploma in administrative management	28 months (including 4 months of practical training)	Common courses: 6 months Public administration; Diplomacy and international cooperation; Economy, finance and auditing.
	2- Higher Cycle of Administrative Management - Possession of a bachelor degree - Review and acceptance of the application by the school + admission test	No more than 40 years by the date of entrance exam	Graduate Diploma in Administrative Management	24 months (including 6 months of practical training)	Cross-training: human resources management methods, project studies, review current national issues, regional and international, auditing and communication skills.
<b>National School of d'Agriculture (E.N.Ag.)</b> Location: Meknès	- high school diploma series: C, D sciences, obtained in the year of registration. With distinction (Excellent, VG or G) - Average $\geq 14/20$ in core subjects	23 years	Agronomist	5 years	1st year 1st cycle: the preparatory cycle of Agronomy Studies Sectors: Agronomy and Plant Breeding, Rural Economy, plant protection, animal production, agricultural extension, science and techniques of fruit production

<b>National School of Architecture (E.N.Ar)</b> Location: Rabat, Fes, Tetouan.	- high school diploma series: C, D sciences, obtained in the year of registration. With distinction (Excellent, VG or G) - Average $\geq 15/20$ in core subjects	22 years	12 semesters (6 years): Bachelor Degree: 3 years Master: 2 years, Architect Diploma: 1 year		Architecture
<b>National Schools of Business and Management (ENCG)</b> Location: Agadir, Casablanca, Fes, El Jadida, Kenitra, Marrakech, Oujda, Settat, Tangier	- high school diploma series: C, D sciences, economics and management, obtained in the year of registration. With distinction (Excellent, VG or G) - Average $\geq 14/20$ in core subjects	No more than 21 years by 31/12/2012	ENCG Diploma	5 years	"- Business: international Business, commercial advertising and communications, marketing and management audit - Management: Financial management and accounting, human resources management, management control NB: first 4 semesters: Core (years of preparatory graduate business and management) "
<b>National School of Forestry Engineers (E.N.F.I.)</b> Location: Salé	1st year of ENFI: - Diploma of 1st cycle degree in Agricultural Sciences obtained in the registration year; - Diploma of general university studies in Biology, obtained in Morocco with at least one distinction - Ability to military training - Review and approval of student's application by the school - Military training and internship are required "	25 years	Forestry Engineer	3 years	Speciality: Forest management, ecology and natural resource management, valuation of forest products, forest economics and management, management of national parks, natural resources geomatics
	1st year of the 3rd cycle (3rd year ENFI): - Diploma in General Forestry, graduate engineering in Water and Forestry (high school diploma +4) - Be fit to military training NB: Review and approval of student's application by the school - Military training and internship are required "			1 year	
<b>National School of the Mineral Industry (E.N.I.M.)</b> Location: Rabat.	Admission to 1st year 1 - Success at the national exam open to students of the second year of preparatory classes Mathematics & Physics ...etc. 2 - Passing the special admission test open to holders of Diploma of general university studies in sciences	No more than 22 years by the date of entrance exam	State engineer	3 years	1st Year : Core 2nd year: Computer Engineering, Geological Engineering, production systems, industrial maintenance, electro-mechanical process engineering, energy systems, materials and quality control, environment and industrial safety, industrial management, development, operation and protection of soil and subsoil "
	3 - Admission to 2nd year: holder of Master degree (high school diploma +4/5) + admission examination.	No more than 22 years by the date of admission exam		2 years	

<p><b>National School of Applied Science (E.N.S.A.)</b> Location Agadir, Fès, Khouribga, Marrakech, Oujda, Safi, Tanger</p>	<p>Admission to 1st year - high school diploma series: C, D sciences obtained in the year of registration. With distinction (Excellent, VG or G) - Average <math>\geq 14/20</math> in core subjects</p>	<p>No more than 20 years by the date of admission exam</p>	<p>State engineer</p>	<p>5 year</p>	<p>First 4 semesters: integrated cycle of preparatory classes (basic scientific training + techniques of expression and communication) Engineering Cycle (3 years): Specialties Computer engineering, industrial engineering, electrical engineering, telecommunications and networks, systems engineering and electronic machines, electronic engineering and industrial computing, industrial engineering and logistics, process engineering of th energy from the environment, embedded electronic systems engineering.</p>
<p><b>Higher National School of Arts and Crafts (E.N.S.A.M.)</b> Location: Meknès</p>	<p>Access in 1st year: high school diploma: Series: Scientific, electric science and technology or mechanical science and technology obtained in the year of registration With distinction (Excellent, VG or G) - Average <math>\geq 14/20</math> in core subjects</p>	<p>No more than 21 years by 31/12/2012</p>	<p>State Engineer in Arts and Crafts</p>	<p>5 years</p>	<p>The first 4 semesters Common Core (Cycle of integrated preparatory classes)</p>
	<p>Admission in 3rd year: 1 - Success at the national admission exam open to students holders of the second year of preparatory classes preselection 2 - Candidates holding a University Diploma of Technology in Mechanical Engineering or Electrical Degree + admission exam</p>	<p>No more than 22 years by 31/12/2012</p>		<p>3 years</p>	<p>Engineering Cycle: mechanics and structures Engineering, Industrial engineering and manufacturing, Electro-mechanical engineering, Materials and processes engineering.</p>
	<p>Bachelor of fundamental studies in mathematics or physical sciences + preselection+ admission exam</p>	<p>No more than 23 years by 31/12/2012</p>			
	<p>Access in 4th year: - Application Engineering degree or Master in Sciences and Technology (MST) + Preselection and file review+ oral exam</p>	<p>No more than 24 years by 31/12/2012</p>		<p>2 years</p>	

<p>Higher National School of Electricity &amp; Mechanics (E.N.S.E.M) Location: Casablanca</p>	Admission to 1st year 1-Success at the national admission exam open to students of the 2nd year of the preparatory classes,	22 years	State engineer	3 years	<p>Electrical Engineering and Telecommunications Electrical Systems Engineering Automatic Industrial Systems Engineering Mechanical engineering and integrated production Quality maintenance and industrial safety Mechanical Systems Engineering Computer Engineering</p>
	Diploma of general university studies in mathematics, physics or computer + With distinction (Excellent, VG or G)+ exam				
	University Diploma of Technology (Engineering: mechanical, electrical or computer) + file review				
	4 - Bachelor in mathematics, physics or computer sciences			2 years	
<p>Ecole Normale Supérieure de Technique (ENSET) Location: Mohammedia</p>	high school diploma Series: science and electrical technologies, mechanical technologies and sciences, mathematical sciences, physics and chemistry , obtained in the year of registration with distinction Excellent, VG,G)	No more than 23 years by 31/12/2012	Certificate of Higher Technician	2 years	Electrical and Automation Systems
	high school diploma Series: mechanical technologies , obtained in the year of registration with distinction Excellent, VG, G)				Plastics and composites
	high school diploma Series: science and electrical technologies, mechanical technologies and sciences, mathematical sciences, physics and chemistry , obtained in the year of registration with distinction Excellent, VG, G)				Networking and Telecommunications
	high school diploma Series: electrical technologies or mechanical technologies and sciences, mathematical sciences, physics and chemistry , obtained in the year of registration with distinction Excellent, VG,G)				Technical Sales
	high school diploma Series: electrical technologies , obtained in the year of registration with distinction Excellent, VG, G)				Industrial Electronics
<p>Ecole Normale Supérieure de Technique (ENSET) Location: Rabat</p> <p>Note: Subject to accreditation specialties and their starting</p>	high school diploma Series: sciences and electrical technologies, mechanical technologies and sciences, mathematical sciences, physics and chemistry , obtained in the year of registration with distinction Excellent, VG,G)	No more than 23 years by 31/12/2012	University Diploma of Technology	2 years	Industrial engineering and maintenance
	high school diploma Series: sciences and electrical technologies, mechanical technologies and sciences mathematics, physics, chemistry, economics, management science accounting, obtained in the year of registration with distinction Excellent, VG,G)				Software Engineering and Networks
					Electrical and Computer Engineering Industrial
					Thermal engineering and energy
					Mechanical Design and Production
					Business Management

<p>Higher National School of Computer Sciences and Systems Analysis(E.N.S.I.A.S) Location: Rabat</p>	<p>Admission to 1st year 1-Success at the national admission exam open to students of the 2nd year of the preparatory classes,</p>	<p>No more than 22 years by 31 /12/ 2012</p>	<p>State Engineer in Computer Sciences</p>	<p>3 years</p>	<p>1st and 2nd years: Common core (computer sciences and Mathematics) 3rd year: 1 - Software Engineering, 2 - Computing and Decision Support, 3 - Networks and communication.</p>
	<p>University Diploma of Technology (Engineering: mechanical, electrical or computer) + file review</p>				
	<p>Admission on the 2nd year: Application engineering degree, Bachelor of Sciences (high school diploma + 4) + File review and acceptance by the school + interview</p>	<p>2 years</p>			
<p>Higher School of Fine Arts (E.S.B.A) Location: Casablanca</p>	<p>high school diploma. all series obtained in the year of Registration with distinction VG,G, FAIR + fluency in Arabic and French + admission exam (written exam in Arabic and French in general culture + practice of test of observation in black and white + practical test interpretation in color and shape) + interview</p>	<p>Age: 17 to 25 years</p>	<p>Diploma in fine arts</p>	<p>4 years</p>	<p>Visual Arts Comics Interior design Object Design Advertising graphics</p>
<p>School of Information Sciences (E.S.I.) Location:Rabat</p>	<p>1st year: 1 - Candidates of the 2nd year of preparatory classes who succeeded in the Common National exam 2 - admission exam for candidates who succeeded the two years of preparatory classes in economics and business, 2nd year: Holders of degrees of informatist or equivalent, folder review and oral exam.</p>		<p>Specialized Informatist</p>	<p>3 years</p>	<p>Libraries management and documentation, archives and records management, information systems management and engineering, strategic intelligence and competitive intelligence</p>
<p>Higher School of Textile and Clothing Industries (ESITH) Location: Casablanca</p>	<p>Access in 1st year: high school diploma. Series: scientific or technical obtained in the year of registration , with distinction of (VG, G ) + psychometric tests and interview</p>		<p>Professional Bachelor</p>	<p>3 years</p>	<p>Management of textile production, clothing production management, development in clothing purchases and sourcing management, chain management logistics</p>
	<p>Access in 3rd year: 1 - Success at the national admission exam open to students of the 2nd year of the centers of preparatory classes in sciences 2- holder of the Diploma of general university studies in sciences or technology, Higher technician certificate, University Diploma of Technology, or Specialized Technician Diploma + exam</p>	<p>less than 24 years by the date of admission exam</p>	<p>State Engineer in Computer Sciences</p>	<p>3 years</p>	<p>International Logistics, Product Manager, Textile clothing.</p>
	<p>High school diploma. + 3 or professional bachelor of ESITH+ admission exam</p>		<p>Specialized Master</p>	<p>2 years</p>	<p>Hygiene &amp; Security Environment, Merchandising, Distribution, Logistics</p>

<p style="text-align: center;"><b>King Fahd High School of Translation (ESRFT)</b> Location:Tanger</p>	<p>Bachelor Degree in French studies, Arabic studies, economics or public or private law in French+ fluency in languages: Arabic, French and English + admission exam</p>		<p style="text-align: center;">Diploma of Translation</p>	<p style="text-align: center;">2 years</p>	<p style="text-align: center;">Subject: (language combinations): Arabic - French - English</p>
	<p>Bachelor Degree in English Studies Fluency in languages: Arabic, English and French + admission exam</p>				<p style="text-align: center;">Subject (language combination): Arabic - English-French</p>
	<p>Bachelor Degree in Spanish Studies Fluency in languages: Arabic, Spanish and French + admission exam "</p>				<p style="text-align: center;">Subject: (language combination): Arabic - Spanish-French</p>
	<p>Bachelor Degree in German Studies Fluency in languages: Arabic, German and French + admission exam</p>				<p style="text-align: center;">Subject : (language combination): Arabic - French-German</p>

Series: Sciences and Electrical Technology, Sciences and Mechanical technology, mathematical sciences, natural sciences, physical sciences, agricultural sciences, economics, management science obtained in the year of registration. With distinction of VG, G and Fair"</p>	<p style="text-align: center;">No more than 22 years by 31/12/2012</p>	<p style="text-align: center;">University Diploma of Technology (DUT)</p>	<p style="text-align: center;">2 years</p>	<p>.Electrical engineering, mechanical engineering and production engineering, process engineering, logistics and transport management, equipment and office automation, biological engineering, industrial maintenance, techniques of instrumentation and quality control, management techniques, communication techniques and marketing, engineering computing, environmental and water engineering, technical marketing, accounting standards and international operator customer service, food industry, bio-industrial, tourism marketing, network technology , sales techniques ar customer loyalty, sales techniques and customer services, enterprise application administrator, personnel administrator, database administrator, entertainment and tourism management, Java developer .</p>

### III - INSTITUTES

Institutions	Requirements		Awarded Diploma	Duration of study	Subjects
	Educational criteria	Age Max.			
<b>Dar Al Hadith Al Hassania (D.H.H.)</b> Location: Rabat	Specializing Basic Training Cycle high school diploma obtained in the year of registration with distinction (VG, G or Fair + Mastery of Arabic, + good level in French and English + examination and approval of student's application by DHH + admission test.	25 years	High Cycle of basic specialized training	4 years	Islamic Studies
	<b>Higher cycle of Comprehensive training</b> Bachelor in Islamic studies, Arabic language and literature or in private law with distinction (Excellent, VG or G). Review and approval of the application by D.H.H.	35 years	certificate of qualification for higher Islamic studies	2 years	
	<b>Higher cycle of Comprehensive training</b> Master Degree in Islamic studies, Arabic language and literature or in private law with honors (Excellent, VG or G). Review and approval of the application by D.H.H.		Phd	4 years	
<b>Hassan II Agronomy and Veterinary Institut (IAV)</b> Location: Rabat	1st Year, 1st Cycle high school diploma. Series :scientific obtained in the year of registration with distinction of (VG or G). Average $\geq 15/20$ in core subjects	No more than 23 years by July 2012	Engineer agronomist	5 years	The first year is a preparatory year in agronomy at the end of which students are directed to sectors based on their results: Agronomy, topography, agriculture and food industries, agricultural engineering, veterinary medicine
			Doctor Veterinary	6 years	
<b>Horticultural Complex (C.H.)</b> Location: Agadir	- high school diploma. Series :scientific obtained in the year of registration with distinction of (VG or G). Average $\geq 15/20$ in core subjects	No more than 23 years by July 2012	Higher Technician	2 years	Horticulture; Phytiatry; Green space

<b>Institut for Training in Health Careers IFCS)</b> Location: In many cities of Morocco	<b>1st Year, 1st Cycle</b> high school diploma. Series :scientific obtained in the year of registration with distinction of (VG or G). Average $\geq 14/20$ in core subjects. - acceptance of the Ministry of Health	No more than 23 years by July 2012	Diploma of the 1st cycle	3 years	Environmental health technician. , Prosthetist technician of biomedical equipment and maintenance, anesthesia and intensive care nurse lab technician, radiographer, physiotherapist, pharmacist, Orthoptist technician of Health Statistic dietician.
	<b>1st Year, 1st Cycle</b> high school diploma. All series obtained in the year of registration -acceptance by the Ministry of Health	No more than 23 years by July 2012			Polyvalent Nurse, psychiatric nurse, midwife, orthophonist, psychomotor, social assistant
